Town Meeting Votes Transfer of Funds

There were about 40 attending last evening's town meeting. The sum of \$4,500 was voted transferred from the road machinery fund for a town truck, the sum of \$175 from the same fund to be used in trading for a new chain saw and \$800 transferred from the road machinery fund to the machinery maintenance fund.

The selectmen of Northfield are receiving bids for plowing snow from the town's sidewalks. The bids should be in writing and should state the charge per hour and the equipment that would be used. These should be in the hands of the selectmen immediately.

On Dec. 9 bids will be opened by the department of public works for the cleaning and painting of the Schell bridge. The sum of \$15,000 was voted early this year but all bids for the work specified were in excess of that amount so were rejected. Since that time metal work repairs have been completed at a cost of between \$2000 and \$2500 to the town.

If a satisfactory bid is accepted the remaining work may be completed under the new specifications by June 1, 1959. The total available for the work includes \$9000 from the state, \$4000 from the town of Northfield and \$2000 from the county.

B. S. Schedule Paper Drive

The local Boy Scouts are to have a paper collection drive. All residents of Northfield, East Northfield and West Northfield are asked to cooperate with the Boy Scouts in an intensive waste paper collection, to be held Sunday, Nov. 30, beginning at 2 o'clock. A fleet of cars and trucks with Boy Scout workers will pick up all bundled papers placed at the road edge at 2 o'clock. Please do not ask the boys to get the papers out of the house. All papers must be placed by the roadside to be collected.

Baptist Church Calls Rev. Harold Tollman

The Baptist church at a business meeting last week extended a call to Rev. Harold Tallman of New York City to become pastor of the church and his acceptance has been received.

Mr. Tallman attended the Moody Bible Institute and the Northern Baptist seminary in Chicago, the Baptist Bible seminary in Johnson City, N. Y., and Burton college in Colorado. He has had 15 years' service as pastor of two churches in New York state.

Upon his arrival here with his wife and two daughters the family will live in an apartment at the Baptist church building.

Historical Society To Elect Officers

The annual meeting of the Historical society will be held in the faculty room at Talcott library, Northfield School for Girls, (use north basement entrance) Tuesday, Dec. 2.

There will be a business meeting and election of officers. Dues are payable at this time. The following topics will be discussed by participating members: the 3 R's, pewter, coin silver, shoeing oxen, tanning and shoe making.

"Peru, Land of the Incas" Proves Fascinating Story

Friday afternoon the Fortnight-up was privileged to have as its guest speaker Henry G. Neugebauer of Keene, N. H., who has been a student of archeology and history for over 40 years.

Mrs. A. E. Davis, chairman of the program committee, introduced the speaker who discussed "Peru, Land of the Incas." Mr. Neugebauer told an exciting story of the Peruvian, South American expedition. He showed some of the most beautiful and spectacular colored slides that one could possibly imagine. The ultimate destination of this expedition was Machu Picchu, the legendary "Lost City of the Incas." Machu Picchu means "a city of refuge where there are windows."

\$185,648 Budget Adopted for PYRS

The Pioneer Valley regional school committee held a busy meeting last week considering a variety of items on the agenda.

Reconsidered following the public hearings in the member towns were several items on the budget but the only changes agreed upon were the cutting of \$200 from janitor's supplies, \$200 for lighting and \$100 from the amount allowed for plowing snow. The committee adopted the total budget of \$185,648 for 1959.

Carefully considered but left unchanged was the \$4500 for the addition of three extra teachers beginning September, 1959. Also considered was the possibility of placing the driver education program on a paid by pupil basis but this, too, was rejected by the committee.

Other items under discussion were the length of period for oil contract bids; the installation of bulletin boards at various places in the building and ways of improving the slippery condition of the ramps to the cafeteria and music rooms.

The report of the National Education week open house was most gratifying to the committee.

Local Schools Close For Holiday Weekend

Thanksgiving vacation for students of the Northfield School for Girls and Mount Hermon school began at noon Wednesday, Nov. 26. Classes will be resumed Monday morning, Dec. 1.

The Pioneer Valley regional school and the local elementary school also closed at noon Wednesday to open at the usual time, Monday morning.

Five-Town Association To Draw Up By-Laws

As a result of a series of five meetings attended by constables, police officers and selectmen of Erving, Bernardston, Gill, Warwick and Northfield a committee has been appointed to draw up by-laws to form an association.

The chiefs of police of these five towns make up the committee: Robert P. Barnes of Northfield, Ralph Bassett of Erving, Roy Newton of Bernardston, Henry Siciak of Gill and Paul O. Haduel of Warwick. An organizational meeting will be held Jan. 14 in Erving for the election of officers and the acceptance of by-laws.

Mr. Neugebauer showed 150 of the 665 colored slides he took on that memorable trek. He said the dangers to an expedition such as this were many. Among these were the four deadly poisonous snakes which were very prevalent. Landslides occur frequently as it rains three hours out of every four and parts of many villages have been torn away by these slides. Earthquakes have to be considered as Peru has been known to have as many as 125 "shocks" in one year.

The speaker showed many fascinating pictures of a building that has stood hundreds of years. It was 890 feet long and 295 feet wide and had been put together with stones and without cement.

These stones were assembled so carefully that it is impossible to get a razor blade between the rocks. It is believed that the Inca civilization produced some of the greatest engineers. One rock, in one of the fortresses shown, weighed an estimated 368 tons and was 14 feet thick and had been brought 17 miles across a canyon.

Many pictures of churches were shown. The beautiful colors and architecture inside of these buildings brought exclamations from the audience. "In one of the churches was an organ over 400 years old which is still played occasionally on Sunday mornings."

No words or pictures can adequately describe or show the climax of this expedition. Machu Picchu, Mr. Neugebauer said, was a spectacle never to be forgotten by anyone seeing it. There are 10,000 feet of terraces leading up to the top of this mountain, and on these terraces the natives had built their homes of stone. Here on this stage with the most dramatic setting in the world the final act of the drama of the old Inca Empire was played out ending in the year 1576. Some of the high mountains surrounding this area have an elevation of over 21,000 feet.

Mr. Neugebauer ended his story by saying, "It is not an over estimate to say that the most thrilling moment I have ever experienced was when standing near the Intihuatana stone alone, at one o'clock in the morning and looking down at Machu Picchu in the moonlight, I recalled the famous words of Rudyard Kipling, 'Something hidden! Go and find it! Go and look behind the ranges! Something lost behind the ranges. Lost and waiting for you. Go!'"

This story and pictures of the "Lost City of the Incas" were exciting and very interesting and the program was enjoyed by all who attended.

A coffee hour from 2 to 3 o'clock preceded the meeting. The hostesses were Mrs. George M. Leonard, Mrs. Fred G. Avery, Mrs. Constantine George and Mrs. L. Percy Goodspeed. Mrs. Julian S. Barber and Mrs. David G. Quinn poured. Mrs. Harold F. Bigelow, as door hostess, welcomed the 65 members and guests present. The invocation by the president, Mrs. Philip M. Mann, Jr., was a prayer from the November message of the president of the Massachusetts Federation of Woman's clubs, Mrs. Natalie Weidner. Mrs. Lloyd W. Nicholson was welcomed as a new member.

The next meeting of the Fortnightly will be on Dec. 5 when Wilfred Freeman will give a reading from Charles Dickens' "A Christmas Carol."

Three Pine Trees

Three Pine Trees—

They are standing, three pines, in a row by the lake,
Where I pass there each day in my walk,
Only trees, but they seem so like real folks I know,
That I love them, and listen as they talk.
The tall father, quite straight, stands a little apart,
Always guarding the mother and child
Who are snuggled together as if to embrace,
Talking softly in pine voices mild.

Oh, such tales as I hear of the long ago days,
When the pine mother tree was not old,
About Indian teepees, and trails through the woods,
And bold deeds which have never been told.

"Then the white men all came," so she says, "with
strange tools

And they made lots of havoc,—too true!

"With their chopping, and hewing and building
There's the first, long deserted log huts, near you."

Then I feel almost sad as the pine, sighing, tells
How the red skins were driven away

And the conquering whites ruled all over the land,—
How the trees dread the saw mill to-day!

So I make silent promises to this little tree clan

As I sit where their needles are piled,

"We will let you three stay right here by the lake,

Happy father and mother and child."

By Ruth Cairns formerly of Spokane, Washington, now of
Greenfield.

There's No Trick to These Sweets

Have you thought of caramels as "tricky" and expensive? Not when they're made by this recipe. Jean Porter, of the C and H Sugar Kitchen, worked it out to get around both of those difficulties.

You'll be impressed to find how easy these caramels are to make. There's no tiring hand beating. They're versatile, too. Can be served as is, or rolled in nuts, coconut, or chocolate shot.

BROWN SUGAR CARAMELS

2 cups C and H pure cane	1/2 cup butter or margarine
light brown sugar	1/2 teaspoon salt
1 cup light corn syrup	1 teaspoon vanilla
1 large can (1 1/4 cups) evaporated milk	1 cup finely chopped walnuts, if desired

In a heavy saucepan combine sugar, corn syrup, milk, butter or margarine, and salt. Heat gradually to boiling, stirring occasionally. Continue boiling, stirring constantly, until mixture reaches 240°F. on candy thermometer, or the soft-ball stage. (When candy gets above 230°F., watch and stir carefully because it will scorch easily!). Remove from heat and stir in vanilla and nuts. Pour into well-buttered 8" or 9" square pan. Let cool for several hours or over night. Turn out of pan onto a cutting board and with a long, sharp knife, cut in strips, then into small lengths. Roll pieces in chopped nuts, chocolate shot or coconut. If left plain, wrap individual pieces in waxed paper. Makes 1 1/2 pounds tender, chewy caramels.

And here are two easy-going cookies you'll want to make for holiday nibbling.

Three new members were present, Milford W. Atwood, Jr., Albert Stone and Charles Cook. The next meeting will be held on Dec. 2 at the home of William Field, Jr., Bald Mt. road, Berardston, Thursday evening the Stamp club met at the Cook home. Backyard Gardener

By Harold E. Mosher, Department of Horticulture, University of Massachusetts

We are approaching that season which has a certain urgency for gardeners. Already some parts of Massachusetts have had the first snow; and winter cold that will freeze the ground is lurking in the near future. This impending freeze spurs us to accomplish those jobs which must be done before winter closes in.

Finish cleaning up the gardens. Burn old flower stalks and plant refuse that was diseased or harbored insects this past year. You can compost any "clean" plant materials.

Rake any leaves that have blown back onto the lawn to prevent killing the grass. Be especially watchful of such leaf accumulations in hollows and in protected corners where the wind has drifted the leaves. These leaves may be used as a mulch over newly planted bulbs and perennials or around the base of ever-

My Neighbors

"HMM — now there's an item that 'cost-push-inflation' hasn't affected too severely!"

green shrubs. Cut some evergreen branches and place them over the leaves to keep them from blowing.

There is still time to plant spring flowering bulbs, but don't delay. The early flowering snow-drop and crocus should be planted immediately. The later flowering bulbs, such as tulip, narcissus and hyacinth, can be planted at any time before the ground freezes.

Plant or transplant small trees and shrubs now while they are dormant. Use plenty of water to settle the soil around the roots. This will help hold the plants firm against winter winds, and aid in the new growth of roots.

Put off the planting of roses and broad-leaved evergreens till early next spring. It is too late for these plants to become established before the ground freezes.

If you plan to start seedlings, pot or repot plants during the winter, now's the time to get your soil supply. Fill a bushel basket or other container with soil and where it will be handy. This can save such work and consternation later on. Store as much soil as you will need. If this is impractical, place a heavy mulch of leaves or other material over some good soil at the end of the garden to prevent frost penetration. You will find the soil here relatively easy to obtain in mid-winter even if you have to dig down through some snow to reach it.

Musical Instruments Made in 1840's Now Considered Collectors' Items

The fife was owned by Mrs. Wheeler and was made by Graves & Co. of Winchester in the early 1840's. The company was located on the banks of the Ashuelot river on North Main St. in approximately the same location where Tacy's Texaco station now stands. USE OF HOUSEHOLD APPLIANCES

Many families need to know how long major household appliances can be expected to last in order to plan ahead for replacements, as letters and queries to the U. S. Department of Agriculture show. Household economists have estimated the life expectancy of washing machines, refrigerators, electric and gas ranges and vacuum cleaners from reports by families on how long they used these various appliances.

The estimates show the average number of years appliances were in use. The household washing machines, on the average, were used 9 years when purchased new. Rural families used their wringer and spin dryer machines longer than automatic washers, possible because of limited water supplies in some rural areas. Refrigerators, ranges and tank-type vacuum cleaners averaged 15 years of service while upright vacuum cleaners were used 18 years.

Those who try to live within their incomes are just trying to mess up prosperity.

The passing of the Packard car, once the symbol of luxury, reminds us that of the more than 2700 names borne by American automobiles, only 16 remain. Sic transit gloria mundi.

Vermont Life

Local people will be especially interested in the Winter, 1958-1959, issue of the Vermont Life Magazine, since Pine Top, operated by the Oliver D. Racines of South Vernon, is mentioned several times in the illustrated article, "How to Get the Most from Vermont's Skiing." All the principal ski areas are listed on maps and charts, with elevations, vertical drop, and directions for getting there.

In this issue a number of snow scenes of Peacham, Vt., are shown, featuring winter sports, school and town activities and a fine picture of the Congregational church. This, however, is not the church where the Rev. Arthur J. Green now of Northfield, first preached on coming over from London, England, in 1914. That was the Methodist Episcopal church. At that time, the pastor of the Congregational church, Mr. Green tells us, was the Rev. Thomas Carlson and that the relations between the two churches were very friendly.

In this number also, is featured the extensive 100-year old Vermont toy industry, exporting toy wagons, baby buggies and dolls to European countries. The pictures of old-time dolls in period costumes will interest the collectors. Nor should one overlook the final article, "Cattle, Christmas Trees and Conservation," a fine tribute to the industry of Riley Bostwick in making his group of small farms pay by raising Black Angus cattle for their meat, and Christmas trees for the holiday market.

Copies of the above magazine may be obtained for fifty cents by writing to the Vermont Development Commission, Montpelier, Vt.

Dickinson Library Notes

November is over for 1958, with an introduction to winter of a covering of snow to clean and whiten our streets and lawns.

Now everyone's thoughts are being directed toward the great holiday season of the year, Christmas. Stores are crying their wares over radio, television and newspapers.

Perhaps libraries should be more up-to-date in letting their public know what they have to offer—for a stated period—some of the newest and best books on the market.

After a day spent in shopping, a good book to read is a fine way to relax around the fire in living room or den. In your library you will find books on travel; science, an interesting life story, or an absorbing historical novel, or just plain "romance." Or maybe you are looking for a good Christmas story or poem, or a book on Christmas customs. Are you plan-

ning to decorate the house or grounds? The Garden club has a long, Lighting, etc. All these may be found in your library.

Have you read Catherine Marshall's new book, "To Live Again"? A most inspiring story and should be read following the book, "A Man Called Peter," which is the story of her husband, Rev. Peter Marshall.

If you haven't read "Through Gates of Splendor" by Elizabeth Elliot, it should be on your reading list soon. It is the story of five young men who were truly dedicated to service for their Lord and Master, who gave up their lives in 1956 in that service.

A new book has recently been published by the same author, Elizabeth Elliot, on the life of her husband, Jim Elliot, one of the young men.

Recent additions to our adult books are the following:

Go South to Sorrow, by Rowan, which deals with integration.

Face to Face, by Mehta, a story of a blind boy in India.

First Lady of the Revolution, by Anthony; the story of Mrs. Mercy Otis Warren.

Boston Ways: high, by and folk, by Weston, is a very readable history of Boston.

We also have the new novel, "Doctor Zhivago," by the Russian author, Pasternak.

Gifts of new books have been received from Mr. and Mrs. Winthrop Sanderson. They are: "The World Is Learning Compassion," by Frank Laubach, and "The Evidence of God in an Expanding Universe"; forty American scientists declare their affirmative views on religion.

Mrs. Harvey Hatheway gave the book, "Seven Steps to Creative Children's Dramatics," by Pamela Prince Walker. The author is a sister of Mrs. Hatheway.
